## Learning objectives

See competences section.

## Competences

Competences	Educational Goals
Knowledge of the agrarian history of the different periods and territories, of the inequalities and social and economic heterogeneity and its paper in the historical evolution.	O1: Comprehend the historical changes in the agrarian European society and its social aspects with the political, cultural and institutional ones.
Knowledge of the problems and methods of research about the rural history.	O2: Identify and differentiate the main trends within the agrarian history, its evolution and development possibilities, while including the more innovative current perspectives.
Knowledge in a comparative way of the different agrarian societies through the years.	O3: Awareness of the main traits that define an agrarian society and differentiate them from progress and underdevelopment of the different societies from a comparative perspective.
Knowledge and capacity to use methodologies from history, specially the more used for the study of the rural world, from an economic, social and institutional level.	O4: Apply the main analytic methods to the study of the historical change.
