In case of hybrid teaching, the two practices can be grouped into one. Likewise, the grade for attendance will be replaced by the quality of the interventions of the students in the classroom (virtual or face-to-face). The activities with a percentage in parentheses are optional, are added to the final grade and will be developed during the course.

Discovering plagiarism or copying will have serious consequences and will always affect the grade. From the beginning, the exercises involved will receive a 0 grade. In addition, academic fraud (copying or plagiarism in papers or spontaneous copying during the exam) involves the application of the Assessment Regulations and the qualification of teaching in the UdL degrees and master's degrees, which means that the coordinator and the head of studies to open the student's file; and that your case will be assessed by the study commission, and the applicable sanctions (depending on the seriousness of the offense) may include the loss of the right to be evaluated for the subject, the loss of registration for a semester or a course or expulsion from the degree up to three years.

Students who combine their studies with a full-time or part-time job whose schedules coincide with those of the classes, or who cannot attend class due to family reconciliation needs, have the right to request an alternative evaluation within a period of 5 days from beginning of the semester. For more information, send an email to academic@lletres.udl.cat or contact the Secretary of the Faculty of Letters. After the first five days of class without giving notice of wanting to take the alternative assessment, the only option will be the continuous assessment already presented in the first paragraph of this section.
