Subject's extra information

The subject proposes the study of social movements in the contemporary stage with special emphasis on identity and cultural issues in general. The agenda reflects the main social changes and the political and social movements that sustained them globally throughout the contemporary period. The subject uses elements of the Just In Time Teaching methodologies and the Evaluation for Projects adapted to the content of the syllabus.

Learning objectives

- O1: Analyze the variables that have caused the main revolts throughout the most recent history.
 O2: Analyze the different forms of collective action - cultural, social and political through its institutionalization and its confrontations against the system.
