Subject contents

- Teaching-learning processes in the 6-12 period based on skills and abilities, taking into consideration the basic abilities to access the curriculum (cognitive, communicative, emotional and social) and the multiple intelligences.
- Curricular planning.
- Components of teaching and didactic models.
- Design and development of the curriculum for a school for all.
- Innovative educational experiences in the 6-12 period.
- Political, legal, social and educational contexts.
- Design and general organization of school space and the classroom: type of school.
- Legislative aspects in the organization of educational institutions.
- Organizational models and their applicability in the school institution.

- School organization, educational centres and functional, material and personal resources.
- Organizational strategies in relation to the curricular planning.
- Inclusive education in the primary education stage: didactic and organizational strategies for the attention to diversity (From special education to inclusive education).

Methodology

The methodology will be based on the Flipped Classroom and problem solving.

It basically consists of assigning students the less active tasks to do at home and use the classroom for those activities that require more participation and interaction. The Flipped Classroom is a methodology created to provide attention to diversity and encourage competencial work.

- The main goals achieved with this learning methodology are:
- Significantly improve the working environment in the classroom.
- Improve the educational attention to every student, based on their capabilities, their way of learning, etc.
- Turn the classroom into an active workplace for all
- Encourage creativity and critical thinking

Issues to consider in case of confinement:

- In the event that face-to-face teaching is not possible due to a situation of confinement or similar, the sessions will be broadcast by videoconference respecting the same established schedule. The different options of the videoconferencing tool will be used so that the sessions can remain participatory and can perform the same tasks planned for the classroom. The sessions can be recorded.
- Recordings and data protection. Information on data protection in audiovisual recording in the subject: in accordance with current regulations on the protection of personal data, we inform you that:
 - The University of Lleida - UdL- is responsible for the recording and use of your image and voice (contact details of the representative: General Secretariat. Plaça Víctor Siurana, 1, 25003 Lleida; sg@udl.cat; contact details of the data protection delegate: dpd@udl.cat).
 - Your recorded image and voice will be used exclusively for the purposes inherent in the teaching of the subject.
 - Your recorded image and voice will be kept until the end of the current academic year, and will be destroyed in the terms and conditions provided for in the regulations on conservation and disposal of administrative documents of the UdL, and the document evaluation tables approved by the Generalitat de Catalunya (<http://www.udl.cat/ca/serveis/arxiu/>).
 - Your voice and image is essential to teach in this subject, and teaching is a right and a duty of the teaching staff of the Universities, which must exercise with freedom of chair, as provided in article 33.2 of the Law organic 6/2001, of 21 December, of universities. For this reason, the UdL does not need your consent to record your voice and image for this sole purpose, to teach in this subject.
 - The UdL will not transfer the data to third parties, except in the cases strictly provided for in the Law.
 - You can access your data; request rectification, deletion or portability; oppose the treatment and request its limitation, as long as it is compatible with the purposes of teaching, by writing to the address dpd@udl.cat. You can also submit a complaint to the Catalan Data Protection Authority, through the Authority's electronic office (<https://seu.apd.cat>) or by non-electronic means.
