Theoretical exposition of the fundamental concepts by the teacher. -Performing exercises, written and oral comments, and written tests in the classroom, as well as activities and readings outside of it. In this sense, the continuous evaluation of face-to-face and non-face-to-face activities will be an important part of the final evaluation of the subject.

Office hours: wednesday, 10:00-11:00h

Development plan

The course will take place over 15 weeks, through hybrid or mixed teaching: of the total of 3 assigned hours of teaching in the subject per week, 1.5 hours will be conducted in person in the classroom, and the another 1.5h via videoconference.

The first day of class, of presentation of the subject and beginning of the first topic, will be on Monday, September 21, through the videoconference session created in the space of the subject.

Teaching will take place on Mondays and Tuesdays of each week, at the hours: 13-14: 30h. Mondays will be virtual, and Tuesdays in person in the classroom (0.10.2). In both cases, the theoretical exposition will alternate with carrying out practical activities and solving exercises, prioritizing the theoretical aspects in the virtual sessions and the practical aspects in the face-to-face sessions.

In any case, the teacher, depending on the group's response, will adapt the proposals if she deems it appropriate to improve the development of the subject. In the face-to-face sessions on Tuesdays a space will always be reserved for queries and doubts about practical aspects of the subject. Whenever the context allows, we will try to ensure that the evaluable activities are developed in the face-to-face sessions.
