Subject's extra information

The Final Degree Project is the final stage of the degree programme in which students carry out a project or individual research under the supervision of an academic tutor. This subject aims to integrate and apply the knowledge and skills acquired during the study programme in an autonomous and original work.

Learning objectives

1. Carry out an individual research or project that demonstrates the application of the knowledge and skills

acquired during the degree programme.

2. Develop research, critical analysis and specific problem-solving skills in the professional or research field.
3. Apply appropriate discipline-specific methods and techniques to address the research problem or question.
4. Demonstrate the ability to communicate clearly and effectively the results and conclusions of the dissertation with an orderly presentation of arguments, concepts and results.
