DEGREE CURRICULUM
CITY AND URBAN PLANNING

Coordination: PALLARES BLANCH, MARTA

Academic year 2023-24

Subject's general information

Subject name	CITY AND URBAN PLANNING			
Code	101180			
Semester	1st Q(SEMESTER) CONTINUED EVALUATION			
Typology	Degree	Course	Character	Modality
	Bachelor's Degree in Geography	3	COMPULSORY	Attendance-based
	Double degree: Bachelor's degree in Geography and Bachelor's degree i Tourism	4	COMPULSORY	Attendance-based
Course number of credits (ECTS)	6			
Type of activity, credits, and groups	Activity type	PRAULA		TEORIA
	Number of credits	3		3
	Number of groups	1		1
Coordination	PALLARES BLANCH, MARTA			
Department	GEOGRAPHY, HISTORY AND HISTORY OF ART			
Teaching load distribution between lectures and independent student work	60 contact hours (in the classroom or virtual) 90 hours of autonomous student work			
Important information on data processing	Consult this link for more information.			
Language	Spanish			

Teaching staff	E-mail addresses	Credits taught by teacher	Office and hour of attention
BONASTRA TOLOS, JOAQUIM	quim.bonastra@udl.cat	1	
PALLARES BLANCH, MARTA	marta.pallares@udl.cat	5	

Subject's extra information

Given the relevance of the city in the contemporary world, in this Degree in Geography we find two complementary subjects, "Urban Geography" and "City and Urbanism" that address the subject from different approaches. On the one hand, the aspects related to the productions, the morphologies and the landscapes generated are studied and, on the other, the theoretical discourse that deals with the city as a factor integrated into specific social dynamics is studied.

See later sections.

Tutoring hours will be established to address individual problems in the monitoring of the subject

Learning objectives

- Knowledge of the main theories about planning and planning
- Familiarize oneself with the instruments of planning, particularly urban cartography
- Critical appraisal of territorial planning documents.
- Practice of territorial diagnostic activities aimed at planning
- Knowledge of the instruments of identification of territorial, rural and urban property
- Recognize in the territory cultural heritage values worthy of protection and promotion
- Recognize the legacy of history in the urban plant
- Train for the geographer's insertion in a multidisciplinary team dedicated to the study of environmental impact

Competences

CB2 Apply their knowledge to their work or vocation in a professional manner and possess the skills that are usually demonstrated through the elaboration and defense of arguments and the resolution of problems within their area of study.

CB3 Ability to gather and interpret relevant data (normally within their area of study) to make judgments that include a reflection on relevant social, scientific or ethical issues

CB5 Know how to develop those learning skills necessary to undertake further studies with a high degree of autonomy

CG1 Assess the mechanisms of interaction of society with the environment

CG2 Identify the great conflicts and inequalities of human society

CG3 Characterize the spatial diversity of the territories

Subject contents

1. Theoretical and conceptual framework. Urban planning and the city
2. The industrial city and the birth of urban planning. Theories, models and urban planning.
3. Theories and urban planning movements of the 20th century.
4. The evolution of urban planning in the post-industrial city
5. Concepts and basic instruments of urban planning
6. New urban approaches for new challenges of today's city

Methodology

Master classes.

Project elaboration.

Spatial analysis from information web spaces

Oral exhibitions based on practices and readings

Development plan

Master classes

Practices on urban planning instruments

Guided readings about the program

Exposure to paertir of readings

There will be a full-day field trip to Barcelona

Evaluation

25% BLOCK Presentation based on readings

25% BLOCK Practice on urban planning instruments

25% BLOCK Practice from a field trip

25% BLOCK Test - Text Commentary
