## **Subject contents**

The Final Degree Project (TFG) is the individual preparation of an original work under the supervision of a tutor, which applies and integrates the knowledge acquired throughout the studies of the Degree.

The TFG can deal with any subject related to the subjects of the Degree. The objective of the TFG is to allow the student to apply the various competences of the degree in an integrative way. The TFG will materialize in the preparation of a written work, which must be defended publicly before a commission appointed for that purpose.

### **REQUIREMENTS:**

- Having passed the courses "General English III" (C2S2) and "Academic and Creative Writing" (C3S1) will be an essential requirement for registering of the TFG, since not having passed the aforementioned courses implies not having obtained the necessary competence in English for the writing of the TFG.

- In accordance with the regulations in force, the tutor must convene an initial tutorial and at least four face-to-face or virtual tutorials with the candidate, which should be registered - see the recommendations document for the follow-up of the TFG.

- It is a prerequisite that the TFG is presented with the authorization and signature of the tutor in order to be evaluated.

- It must be taken into account that the commission has the power to reduce the final grade of the TFG by 50% if the student has not reached the level of language required for the degree.

## Methodology

The Final Degree Project (TFG) is a research work that must be carried out individually by the student under the supervision of a tutor, who will guide the student through the process.

The objective of the TFG is to allow the student to apply the various competences of the degree in an integrative way. The TFG will materialize in the preparation of a written work, which must be authprised and signed by the tutor

In accordance with the regulations in force, the tutor must convene an initial tutorial and at least four face-to-face or virtual tutorials with the candidate, which should be registered - see the recommendations document for the follow-up of the TFG.

Candidates are required to hand in the submission available at the Faculty webpage before the deadline together with a pdf copy of their text, to the following address: [lletres.secretaria@udl.cat](mailto:lletres.secretaria@udl.cat)

## Development plan

### **Recommended tutorial calendar and monitoring mechanisms:**

Once the tutor / topic assignments have been made, and once the tutor and student have established a work plan (in December) as specified in the regulations (TFG regulations of the Faculty of Arts), a student and tutor must commit to covering a minimum of four additional face-to-face or virtual tutorials with the following recommended schedule:

- December: Tutorial with the tutor to establish the work calendar.
- January: Submission of a developed proposal of the TFG with a theoretical / methodological approach, outline, bibliography and meeting with the tutor (feedback of the proposal, date and schedule for the first draft).
- February: Handing of the first draft as agreed with the tutor and meeting with the tutor (feedback of the first draft, suggestions and date of the second delivery).
- March / April: handing of the second draft as agreed with the tutor and meeting with the tutor (feedback of the second draft, suggestions and date for a final version to review).
- Until May 20: Delivery of a final version to review and meeting with the tutor (feedback from the final version to review).
- May 28-30: Delivery of the final version and verification by the tutor that the indications and / or suggestions made to the latest version of the TFG have been incorporated correctly. At this point, the tutor must decide whether the final version of the TFG can be handed in or suggest changes / modifications before the final version on the date set in the calendar.
- June 13-16: Public hearings

### **Additional recommendations:**

- It is recommended that the tutor establishes all face-to-face or virtual tutorials by e-mail so that they are registered.
- It is recommended that the drafts are handed in by email so that there is evidence.
- It is recommended that the tutor sends feedback / corrections of these drafts by email within a maximum of one week and that s/he certifies, in the same email, the date for the next tutorial.
- It is recommended to carry a follow-up document containing the tutorials and dates of delivery of student drafts and corrections by the tutor
