Subject's extra information

Students are recommended to have reached an A2 level of English according to the Common European Framework of Reference for Languages. It is intended that students acquire and consolidate a B1 level throughout the academic year by taking courses Business English I and II.

The assessment of the subject follows a continuous assessment. This means that the final mark is the sum of the partial notes. In the case that a student failed more than two assessment activities, the subject will be failed (a fail means that the mark is less than <4>). However, those students who only take the first two assessment activities (being passed or failed) will obtain a NO PRESENTAT grade. The average mark to pass the course must be 5 or more (out of 10).

This course enables students to practice oral and written skills, terminology and textual genres related to oral and written Business English semester.

During the year 2015-16, this course hosts the program DOCÈNCIA REPETIDA. This means that those students enrolled during the year 2014-15 in the subject of Business English 1 and who have failed the subject may enroll in the course again (after payment of the fees). This will entitle them to be examined again and to pass the course within the academic year. The GM will only offer 40 places and the list of students who can enroll will have to comply the following requisites:

(1) Students who have already enrolled in the subject in previous years (regardless of the final grade) and have failed the subject of Business Inglés in the academic year 2015-16 with a mark between 4 and 4.9. If the number of this type of students exceeds 40 places access will be given to those students whose mark is closer to 5, being followed by those marks organized in a reverse order.

(2) new students to the subject who have failed the subject with a mark between 4 and 4.9. The number of places left by type-(1) students will be covered with new students to the subject and who have failed the course with a score between 4 and 4.9. Priority will be given to those students whose mark is closer to 5; the list will be compiled with the marks in reverse order.

In both cases, if you obtain a lower mark than 4 or a NO PRESENTAT you do not have the possibility of enrolling again in the course.

Students enrolled in this GM are committed to compulsorily attend 80% of classes. Non-attending 80% of the classes implies failing the subject.

The evaluation is organized in the same way as in the 1st semester: with the same activities and the same percentage distribution.

Learning objectives

See competences

Competences

University of Lleida strategic competences

- Correctness in oral and written language.

Goals

- To selection appropriate stylistic options.
- To structure a text properly depending on its communicative purpose.

Subject contents

- Cultures (weeks 1-4)
- Corporate organization (weeks 5-8)
- Business ethics (weeks 10-16)

Methodology

This course has a workload of 6 ECTS, equivalent to 150 working hours.

These hours are of two types:

- Classes: for a total of 60 hours, students will meet face-to-face in GG and GM classes. The methodology used is based on the premise that the student is the center of the learning process. Through an active methodology, teachers guide students to acquire skills needed to become an apprentice to achieve effective English language within the business and economics.

- Autonomous learning: for a total of 90 hours, students will conduct learning individual and group activities.

Development plan

Weeks 1-4: Cultures

- Business topics: culture in business, intercultural issues
- Language focus: articles and nouns, modals use for advice, obligation and necessity
- Business skills: small talk, introducing others, culture briefing

Weeks 5-8: Corporate organization

- Business topics: company departments, jobs and functions
- Language focus: relatives and connectors; describing a graph
- Business skills: company profiling, understanding an organigram, describing trends

Week 9: Reading comprehension test

Weeks 10-16: International markets and ethics

- Business topics: code of ethics, wrongdoings, environmental impact
- Language focus: conditionals, email conventions
