Subject's extra information

The course will take place 100% face-to-face. So that it can be a participative and live learning, we expect your involvement, by reading, participating in face-to-face and online dynamics, and at all times, carrying out the necessary information searches. It is important for this subject, not essential nor a requirement, to have taken and passed the introductory social services and introductory law subjects in the first year of the degree.

Learning objectives

1. Know and understand the fundamental aspects of the legal and normative regulation of social services in Catalonia.
2. To master the provision of services, economic benefits and the main current programs of social services in Catalonia.
3. Know how public and private social services are organized in order to provide an effective response.
4. Know the organization and main mechanisms of action and regulation of the autonomous system of social services.
5. Obtain information from different sources and interpret the literature with which the social services system is constantly being built and modified.
6. Relate the elements of the social services system to everyday reality and analyze technical intervention and social policy guidelines.
7. Critically and substantiated analysis of the regulations, programs, organization and practical operation of the current model of social services.
