Learning objectives

- Properly apprehend the functioning of a social service institution by directly observing and seeking other sources of information, whether bibliographic, documentary, interviews or online resources. (2,7)
- Extend this information to the field in which the institution under study carries out its action.
- Place the institution and the field studied in the general context. (1,3)
- Prepare a written report where the results of the work carried out are described extensively. (4,5,6)
- Make an oral presentation of the report. (5).

Competences

CG2: Show organizational and planning skills.

CG3: Develop capacity for problem solving and decision making.

CG5: Show skills in interpersonal relationships

CG7: Exercise autonomous learning and adaptation to new situations

CT3: Use ICT in the professional context and information management capacity.

CE3: Critically understand intervention models in social work

CE4 Know how to apply the methods and techniques of social work in the different areas and fields of intervention.

CE5: Know the mechanisms to make citizens aware of their rights and motivate them to make fundamental decisions

CE6: Analyse and evaluate the social problems and needs present in society.

Subject contents

- Direct contact with the reality where the intervention of the social worker takes place.

- Discover, analyze and understand the context and processes of social intervention in the company of a social worker.
- Know the scope of intervention of the institution.

Methodology

The student will complete a total of 150 training hours (6 credits), distributed as follows:
