## Subject's extra information

### IMPORTANT

This subject deals with social entities, associations, NGOs, and foundations.

There is an increasing number of professionals in the social field working in social entities, which is why we believe it is an important subject for Social Work students.

Most of you will work in the third sector at some point in your professional lives. This subject closely examines the day-to-day realities of social workers in the third sector.

There is no exam in this subject, but it requires student involvement. Please carefully review the guide and the proposed evaluation before enrolling.

### ABOUT THE SUBJECT:

The aim of this subject is to provide students with a general understanding of the third sector and its current implications in the welfare state.

We will explore basic concepts (definitions, legislation, typology, etc.) and provide an introductory overview of the main theories from collective action to social movements and social entities.

We will also review the main forms of social intervention employed by third sector entities.

Special attention will be given to the role of professionals in the field of the third sector and the relationships and work involved with members, volunteers who accompany us in our work, or whom we will have to support in most organizations in the field. Working with volunteers will be one of the focal points of the subject.

We will examine the relationship between the third sector and the administration, as well as the synergies and forms of collaboration between entities, both public and among themselves.

We will touch upon the role of online social networks and the impact of new technologies on the reality of the third sector. We will explore the relationship between the third sector and social movements, as well as new strategies for mobilization using ICT.

Finally, we will ensure that students gain a firsthand understanding of the reality of the third sector "in situ" through the completion of tasks related to the third sector in our province.

The ultimate goal is for students to critically review the reality of the third sector using the data and information obtained throughout the course, and to be able to relate it at the micro-social level, in relation to the network of entities in Lleida.

### NO PRESENT

It was agreed upon in the degree and master's commission of the Faculty that starting from the 2021/22 academic

year, the grade of "not presented" will be applied to all subjects in the various degrees and master's programs of the FEPTS (Faculty of Social Sciences and Humanities) whenever the student has completed less than 30% of the assessment activities for the subject. If the student has completed 30% or more of the assessment activities, the corresponding grade will be recorded in the transcript. This percentage or information is subject to change, and any updates will be communicated accordingly.

## Learning objectives

## Methodology

### METHODOLOGY

Presentation of works and studies by the professor and/or students (theoretical presentations, seminars, work presentations) - in some cases, flipped classrooms - 20%

Classroom dynamics, activities, and practical case studies - 15%

Reading of articles and books related to the subject - 15%

Debates/discussions in the classroom based on proposed cases or readings - 15%

Sessions with professionals and entities from the sector and subsequent debate - 15%

Group and individual project work - 20%

The methodology will be primarily participatory and requires the involvement of the students.

The proposal is that through readings, video presentations, teacher-led discussions, as well as contributions from students, debates, and assigned projects, we can gradually build a clear and comprehensive understanding of what the Third Sector is and the role it currently plays in society.

**The following types of dynamics and activities will be conducted in the virtual classroom:**

Reading of articles and books related to the subject.

Researching resources and other information online.

Creating a blog and sharing information on social networks.

Engaging in practical case studies in the classroom, whether in the form of texts or testimonies.

Debates/discussions in the classroom based on proposed cases or readings.

Visits to social entities and/or visits from professionals to the Udl. Group and individual project work.

Presentations by both the professor and students, individually and in groups.

Other dynamics proposed by the professor or the class (as long as they are relevant to the topic being studied).

## Development plan

## Evaluation

### CONTINUOUS ASSESSMENT (GENERAL)

It is structured into four blocks.

## **BLOCK 1 25%**

CREATION OF FREE ENTRIES IN THE BLOG CREATED BY THE STUDENT

3 entries on any topic

ADDITIONALLY: You should comment on two entries from your classmates. You can choose any entry, but they must be worked on; contribute something, provide a well-founded critical comment, among other things.

## **BLOCK 2 25%+ 5%**

ENTRIES ABOUT THE VISITED ENTITIES

ENTITIES 25%

Compilation of visits to the entities or outings that we will undertake to get to know them.

One entry will be required for each entity.

These entries will highly value data expansion and research.

FIGHT AGAINST POVERTY VIDEO 5%

After visiting the entities, we will create a video for "Classrooms Against Poverty" and you will upload it to Youtube to later link it in the blog.

The blog must be created continuously. Leaving everything for the last minute will be penalized in the assessment. We will complete the blog by April 30, 2024.

## **BLOCK 3 20%+15%**

INTERVENTION ACTIVITIES IN THE FIELD

DESIGN, IMPLEMENTATION, AND EVALUATION/MEMORY OF AN ACTIVITY IN A TSAS ENTITY (EL PALET)  
20%

PREPARATION OF BUDGETS FOR THE ENTITY 15%

## **BLOCK 4 10%**

PARTICIPATION, ATTITUDE, AND ATTENDANCE

## **ALTERNATIVE ASSESSMENT**

ONLY FOR THOSE STUDENTS WHO HAVE FORMAL AUTHORIZATION FROM THE UNIVERSITY.

STUDENTS WITH ALTERNATIVE ASSESSMENT MUST FOLLOW THE COURSE WITH THE RESOURCES (POWERPOINT AND READINGS) AVAILABLE IN RESOURCES.

Tasks to be performed

Creation of the Blog under the same conditions as your peers. Due on April 30.

25% entries on any topic related to TSAS (related to the topics covered and to be posted in resources)

25% entries about 3 entities in Lleida and the role/functions it plays in TS (therefore, there must be a TS contracted)

15% entries about news in the press about TSAS and a critical and well-founded commentary on them

10% commenting on 3 entries from other classmates.

In addition,

25% - Preparation of the Volunteering Plan for an entity and a training plan. Due on May 29, 2024

## ATTENTION (This comment is for all students)

It is important that you CITE even if they are entries in a blog, which are more informal. It's important to cite. At the end of the entry, you should indicate the references. Remember that plagiarism is a crime. Your work must be original, and anything you want to cite from others should be placed "in quotation marks" or indicate from whom you "borrowed" the idea. It is important that each work includes its bibliography and reference URL. Citations should be made following APA 7th edition guidelines.

Finally, please note that incoherent writing and spelling errors will be negatively evaluated.

If plagiarism is detected, the respective BLOCK or, depending on the severity of the plagiarism, the course may be suspended.
