

Universitat de Lleida

DEGREE CURRICULUM
**COMPUTER NETWORKS AND
COMMUNICATIONS**

Coordination: FERNANDEZ CAMON, CESAR

Academic year 2017-18

Subject's general information

Subject name	COMPUTER NETWORKS AND COMMUNICATIONS			
Code	102024			
Semester	2nd Q(SEMESTER) CONTINUED EVALUATION			
Typology	Degree	Course	Typology	Modality
	Bachelor's Degree in Computer Engineering	3	COMPULSORY	Attendance-based
ECTS credits	6			
Groups	1GG			
Theoretical credits	4			
Practical credits	2			
Coordination	FERNANDEZ CAMON, CESAR			
Department	INFORMATICA I ENGINYERIA INDUSTRIAL			
Teaching load distribution between lectures and independent student work	6 ECTS = 25x6 = 150 working hours 40% --> 60 working hours at class/lab rooms 60% --> 90 non guided working hours			
Important information on data processing	Consult this link for more information.			
Language	Catalan/English Teaching materials: english			
Distribution of credits	Cèsar Fernández Camon, 6			

Teaching staff	E-mail addresses	Credits taught by teacher	Office and hour of attention
FERNANDEZ CAMON, CESAR	cesar@diei.udl.cat	6	Monday, 9:00-11:00 Room 3.21

Subject's extra information

The subject deeply analyzes the following concepts; routing, service load balancing and network management. A theoretical and practical approach is proposed, using several real scenario cases, deployed by the student using simulation tools.

Learning objectives

- To understand the concepts and mechanisms related to unicast and multicast routing
- To develop and configure routing devices in OSPF, RIP, BGP and multicast scenarios
- To understand redundancy and load balancing in routing networks
- To design and configure fault tolerant and load balancing communication networks
- To understand network management concepts
- To learn about SNMP protocol
- To design management tools based on SNMP

Competences

University of Lleida strategic competences

- CT2. Mastering a foreign language, especially English.
- CT3. Training Experience in the use of the new technologies and the information and communication technologies.

Degree-specific competences

- GII-TI2. Capacity to choose, design, deploy, integrate, evaluate, build, manage, explode and keep the hardware, software and network technologies inside the cost and quality requirements.
- GII-TI4. Capacity to choose, design, deploy, integrate and manage networks and infrastructures of communications in an organisation.
- GII-TI6. Capacity to conceive systems, applications and services based in network technologies, including Internet, web, e-commerce, multimedia, interactive services and mobile computation.
- GII-TI7. Capacity to comprise, apply and manage the computer systems guarantee and security.

Competències transversals de la titulació

- EPS11. Capacity to understand the needs of the user expressed in a no technical language.

Subject contents

- Advanced Routing

- Routing basic concepts. Algorithms and protocols
- Routing Information Protocol (RIP)
- Open Shortest Path First (OSPF)
- Border Gateway Protocol (BGP)
- Multicast Routing
- Tunnels
- Redundancy and Balancing
 - Virtual Redundancy Routing Protocol (VRRP)
 - Load Balancing
 - Server Load Balancing
- Network Management
 - Basic concepts
 - Simple Network Management Protocol (SNMP). Architecture, details and tools
 - Abstract Syntax Notation (ASN)

Methodology

This subject is splitted into three parts; Routing, Redundancy and Balancing and Network Management. Besides the corresponding master class and problem resolution sessions, for each part a practical exercise is proposed and developed in laboratory sessions.

Development plan

- 11/2 - 25/2. **Theme 1. Advanced Routing. (Basic concepts, RIP, OSPF)**
- 26/2 - 27/2. **Lab tools setup**
- 4/3 - 14/3. **Theme 1. (BGP, Multicast)**
- 19/3. **Practice 1 (Routing)**
- 20/3. **Theme 1. (Tunnels)**
- 25/3 - 8/4. **Theme 2. Load Balancing (Redundancy and Load Balancing)**
- 10/4. **Partial exam 1 (Theme 1) . Practice 1 validation**
- 22/4- 25/4 **Theme 2 (Server load balancing)**
- 28/4 - 9/5. **Practice 2 (Redundancy and Balancing)**
- 12/5 - 23/5. **Theme 3 (Network Management)**
- 26/5 - 30/5. **Practice 3. (SNMP)**
- 11/6. Tema 4 .**Partial exam 2 (Themes 2 and 3). Practices 2 and 3 validation**

Evaluation

Evaluation Activities

Acr.	Activity	Weight	Min Score	Groupal	Mandatory	Remedial
P1	Practice 1	14%	-	Yes	No	No
EP1	Partial Exam 1. Validation P1	29%	-	Yes	No	No
P2	Practice 2	14%	-	Yes	No	No
P3	Practice 3	14%	-	Yes	No	No
EP2	Partial Exam 2. Validation P2 and P3	29%	-	Yes	No	No

Final score: $0.14*(P1+P2+P3) + 0.29*(EP1+EP2)$
