Analytical accounting vs financial accounting

Cost methods: full cost / direct cost

Methodology

The subject combines theoretical lessons with the practical applications of knowledge, with known examples that immediately generate a relation of the content of the subject with current aspects.

In each of the themes, there will be a first part of explanation of the main concepts, with the consequent immediate practical application

Development plan

Part 1: Weeks 1 to 3

Part 2: Weeks 4 to 8

Part 3: Weeks 10-11

Part 4: Week 12

Part 5: Weeks 13-14

Part 6: Week 15

Evaluation

First Exam: 30%

2nd Exam 35%

Exercices to be solved 35%

Bibliography

Different materials will be provided throughout the course

As a reference of which you can do a good follow-up, mention:
