Methodology

Llengua III (Turisme) uses a 'blended learning' methodological approach. The term 'blended learning' is a 'buzz' term, yet one that means different things to different people. The 'classic' definition of blended learning is a course consisting of traditional 'face-to-face' language lessons, combined with 'distance learning', ie the opportunity to study 'beyond the classroom'. Such a course can provide many benefits for language learners.

In this course, Blended learning offers a broader definition, taking blended learning to mean a combination of classroom teaching and the appropriate use of technology. We will integrate technology in class by using the sakai platform and using technological resources (on-screen activities, video and sound for listenings).
