DEGREE CURRICULUM **CHILD DEVELOPMENT AND EARLY CARE**

Coordination: PETREÑAS CABALLERO, CRISTINA

Academic year 2019-20

Subject's general information

Subject name	CHILD DEVELOPMENT AND EARLY CARE			
Code	102931			
Semester	2nd Q(SEMESTER) CONTINUED EVALUATION			
Typology	Degree	Course	Character	Modality
	Bachelor's Degree in Psychology	4	OPTIONAL	Attendance-based
Course number of credits (ECTS)	6			
Type of activity, credits, and groups	Activity type	PRAULA		TEORIA
	Number of credits	1.8		4.2
	Number of groups	1		1
Coordination	PETREÑAS CABALLERO, CRISTINA			
Department	PSICOLOGIA			
Important information on data processing	Consult this link for more information.			

Teaching staff	E-mail addresses	Credits taught by teacher	Office and hour of attention
PETREÑAS CABALLERO, CRISTINA	cristina.petrenas@udl.cat	6	

Learning objectives

1. Deepen on the processes of psychological development in the childhood period of 0 – 6 years, both in the social and family context.
2. Understand the current concept of early childhood care and its historical evolution.
3. Understand and reflect on the different theoretical models that suport early childhood care.
4. Identify and understand the conditions involved on the prenatal, perinatal and post natal development, as well as the importance of early detection and intervention.
5. Know the basic aspects of early childhood care.
6. Acquire resources for enabling the socioeducational process of children with difficulties.

Competences

Basic skills:

CB3 Ability to identify and interpret relevant data (usually within the student's research area) in order to issue judgments that include a reflection on relevant issues of a social, scientific or ethical nature.

CB5 Know how to develop learning abilities necessary to undertake further studies with a high degree of autonomy.

General skills:

CG1 Develop the ability to adapt to new situations and solve problems in an effective way.

CG5 Demonstrate critical capacity when making relevant decisions.

CG7 Be creative, show research values and communicate in a professional way.

CG9 Recognize diversity and difference as structural elements of human beings, while recognizing, understanding and respecting the cultural complexity of nowadays society.

Specific skills:

CE5 Design and implement an psychological intervention plan / strategy based on the context or services requested.

CE6 Act accordingly and professionally taking into account the attitudes and values of the profession, as well as its ethical and deontological code, in each and every one of the intervention processes.

Transversal skills:

C15 Acquire basic notions of scientific thinking.

Subject contents

Unit 1. A review of child development from 0 to 6 years.

Unit 2. Theoretical foundations of early childhood care.

Unit 3. Target population for early attention (disabilities, prematurity, ASD, Language disorders) and areas of action (Education, social and Health services)

Unit 4. Assessment, diagnosis and intervention in early care.

Unit 5. Early attention to families.

Methodology

The classes will include both a theoretical and a practical content. Different methodologies will be used: lectures, seminars, reverse class, case resolution, lecture videos, debates, visit of professionals, among others. It is mandatory for the student to **actively and reflectively** participate during classes. Experienced work will be carried out so that students can make a self-knowledge process about their characteristics, potentialities and limitations as teachers.

Individual tutorials will be used as a tool to support the learning process.

Sakai will be considered as a tool for **debate** and as a platform to **share resources** that may be interesting for the learning process.

The classes will promote the participation and the self-management of the student's learning process.

Development plan

RELEVANT DATES	Due dates
May 19	Delivery of evidence 1- Scientific article
May 18 and 19	Poster and oral presentation of the article
May 25 (15h-17h)	Written exam

Evaluation

CONTINUOUS EVALUATION

The evaluation is continuous; therefore, the regular attendance to class and the elaboration and delivery within the established dates of the tasks that are specified as evidences of evaluation of the subject are mandatory to pass the course.

The **evidences of the evaluation** are:

A1. Elaboration of a scientific article based on a case study.

Weighted value: 29% of the final grade

A2. Poster and oral presentation of the article.

Weighted value: 17% of the final grade

A3. Seminars and practical activities.

Weighted value: 25% of the final grade

A4. Written exam.

Weighted value: 29% of the final exam's grade

REQUIREMENTS TO PASS THE COURSE

- The evaluation criteria for assessing the evidences A1, A2 and A3, will be uploaded from the beginning of the course in the virtual campus
- As the 4 evidences are worth less than a 30% none of them can be recovered.
- To pass the course is essential to approve all the evidences of evaluation with a grade equal or higher than 5.

The linguistic and formal correction on written assignments area an indispensable requirement (<http://www.fce.udl.cat/Recursos/guias/guiatreballs.pdf>). The theoretical framework of the written assignments must stick to the academic requirements including proper citation under APA guidelines. Explicit errors or incorrect presentation will affect the grade of the course.

EVALUATION ONLY FOR STUDENTS WITH ACREDITED WORK

This type of evaluation only applies for students who have approval of the relevant commission and the permission to perform this single assessment.

The evidences of evaluation are the same evidences of continuous evaluation.

EVALUATION FOR STUDENTS WITH SEN (Special Educational Needs)

Condition: Certificate of disability or certificate of presenting any learning difficulty.

The professors in charge of the course may modify the assessment system and decide whether or not to carry out face to face activities depending of the Special Educational Needs of every student. Any decision taken will be always guided and guaranteed by the UdL Attention to Diversity Commission.
