DEGREE CURRICULUM
MASTER'S THESIS

Coordination: ALDOMA BUIXADE, IGNASI

Academic year 2021-22

Subject's general information

Subject name	MASTER'S THESIS			
Code	12441			
Semester	UNDEFINED			
Typology	Degree	Course	Character	Modality
	Master's Degree in Mountain Areas Management	1	COMPULSORY	Blended learning
Course number of credits (ECTS)	6			
Type of activity, credits, and groups	Activity type	TFM		
	Number of credits	6		
	Number of groups	1		
Coordination	ALDOMA BUIXADE, IGNASI			
Department	GEOGRAPHY AND SOCIOLOGY			
Teaching load distribution between lectures and independent student work	Independent student work 100%			
Important information on data processing	Consult this link for more information.			
Language	Spanish Catalan			

Teaching staff	E-mail addresses	Credits taught by teacher	Office and hour of attention

SCHULTE , LOTHAR	schulte@ub.edu	0	
UBEDA CARTAÑA, XAVIER	xubeda@ub.edu	,5	
VERICAT QUEROL, DAMIAN	damia.vericat@udl.cat	,5	

Subject's extra information

The conditions for monitoring, preparing and writing, presenting and evaluating the TFM are detailed in the document: "Final Master's Thesis: guide", which is included in the resources section of the Virtual Campus of the subject.

Learning objectives

Design a project for the recognition, development or planning of a mountain territory, both from the aspect of

analysis of the observed reality, as well as diagnosis and proposals, as well as aspects of environmental or socio-economic management of mountain territories.

Apply the techniques and instruments of observation, analysis, proposals and / or management introduced during the development of the master's degree to the environmental and socio-economic realities of mountain areas.

Competences

Basic

B06 Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context (*)

B08 That students are able to integrate knowledge and face the complexity of formulating judgments based on information that, being incomplete or limited, includes reflections on the social and ethical responsibilities linked to the application of their knowledge and judgments (*)

B09 That students know how to communicate their conclusions -and the knowledge and ultimate reasons that support them- to specialized and non-specialized audiences in a clear and unambiguous way (*)

B10 That students possess the learning skills that allow them to continue studying in a way that will have to be largely self-directed or autonomous.

Generals

CG4 Analyze the underlying dynamics of new and complex situations, design alternative resolution strategies and take advantage of the potential for improvement.

Specific

CE3 Design, write and develop plans and projects for risk prevention, resource management and physical planning.

CE5 Analyze the processes of economic development in areas of low demographic density and design alternatives for growth and development of new activities.

Subject contents

Individual work applied in a specific territory or reality on a subject of territorial planning (risk prevention, urban planning, ...), economic revitalization plan or business project in a specific mountain area.

Methodology

Teaching methods	Learning activities	Total hours
TFM	Tutoring / orientation session	4
	Follow-up tutorials	10
	Search for information	20
	Readings	20
	Drafting of TFM	95
	Presentation / defense of the TFM	1

Development plan

The Master's Final Project is carried out at the end of the academic journey, once the knowledge of the subjects of the Master has been acquired.

Evaluation

Evaluation system	Weighting in%
Reports, analysis reports or applied project	65
Oral defense of Works	20
Assistance and preparation of TFM follow-up tutorials	15

Bibliography

Recommended by the tutor of each specific subject
