Learning objectives

- Knowing the relationships between psychology and consumer behavior and marketing
- Analyzing, from the point of view of social psychology, communication in advertising messages

Competences

Basic skills:

CB2 Apply their knowledge to their work or vocation in a professional way and possess the skills that are usually demonstrated by developing and defending arguments and solving problems within their area of study.

General Competences:

CG1 Develop the ability to adapt to new situations and solve problems effectively.

CG7 Acting with creativity, research culture and professional communication.

Specific Competences:

CE1 Identifying and analysing the characteristics and needs of people, groups and organisations, as well as the relevant contexts for the service requested.

CE2 Planning the evaluation of programs and/or psychological interventions, selecting the appropriate indicators and techniques.

CE4 Analyzing and interpreting the results of psychological assessment.

CE6 Respond and act in an appropriate and professional manner, taking into account the attitudes and values of the profession, as well as its code of ethics and deontology, in each and every one of the intervention processes.

CE8 Elaborate technical reports, oral and written, about the results of the evaluation process, of the investigation or of the services demanded, respecting the ethical commitment that the diffusion of psychological knowledge demands.

Transversal competences:

CT2 Acquiring a significant command of a foreign language, especially English.
